

PRESOAK 1.1

Description:

This acid detergent with corrosion inhibitors is specifically conceived for car wash installations without brushes, in phase 1 pre- wash. It has a very effective cleaning action, and acts also on the traffic film, on organic deposits and on the oxides from engine exhaust systems. It does not damage any part of the cars, like gaskets, profiles, rubber and plastic parts. It can be used on all the new materials for cars. It prepares cars for the next phase of washing with alkaline reaction; it is suggested to use it with Presoak 2.2 detergent.

Directions for use:

Doses: with a dosatron set on 0,8%.

In automatic car wash installation on with a dosing pump use preferably as is and set on the doses on 80gr of product per car, according to the car wash installations and to its conditions of use (speed, chain, type of installation –tunnel or portal-, temperature).

Remarks:

Please follow the instructions on the safety data sheet for the safe handling of the product.

Technical characteristics:

Appearance and color: amber/orange colored

Smell: characteristic

pH: 0

Flash point: >100°C

Relative density: 1.035 g/cm³

Solubility in water: soluble

Lipid solubility: not soluble
