

GRAPHOIL

Description:

GRAPHOIL protects and lubricates the underbody of the car creating a water repellent film that can not be removed by splashing water or mud. It ensures high protection of underbody metal parts even with bad weather conditions. It prevents rust, does not corrode metals, rubber and other materials used in the underbody. It 's easy to apply.

How to use:

Wash residues of various types on the underbody and let dry. Then apply the product by the special nozzle with compressed air.

Warningse:

For handling the product, observe the recommendations on the MSDS

Specifications:

Appearance and color: fluid graphite

Odour:characteristic
