

LUSTRAVAX/S

Description:

This product is specific for polishing, and should be used in car wash installations equipped for it. It contains polymers useful for the protection of car paint. It polishes and does not leave any halo on the car body; protects the treated parts, and is self drying. It helps in preventing the formation of dirt deposits, and is compatible with biological depuration systems.

Directions for use:

Doses: In automatic installations with dosing pump: use the product preferably as is, and set the dose to 3 grams of product per car, according to the car wash installations and to its conditions of use (speed, chain, type of installation – tunnel or portal -, temperature).

Remarks:

Please follow the instructions on the safety data sheet for the safe handling of the product.

Technical characteristics:

Appearance and color: white liquid

Smell: characteristic

pH: 5.40

Flash point: >100°C

Relative density: 1.0010 g/cm³

Solubility in water: soluble

Lipid solubility: partially soluble
