

# SVITAVVITA SPRAY GAS

## **Description:**

*It lubricates, unblocks, cleans. It penetrates deeply and dissolves rust, oxides and carbon residues, unlocking in a short time nuts, bolts, studs, valves and elastic segments. It is excellent for unblocking hinges, battery contacts and locks. It has a long lasting protective effect on the treated parts, and prevents mechanisms being blocked by freeze.*

## **Direction of use:**

*Spray keeping a 15-20 cm distance between the nozzle and the part to be sprayed, with the container in vertical position; wipe with a clean cloth*

## **Remarks:**

*Pressurized container. Protect from direct exposure to sunlight or temperatures over 50 °C. Do not puncture or incinerate even after use. Do not spray near an open flame or an incandescent body. Keep away from sources of ignition. Do not spray directly into the eyes. Keep out of the reach of children. Do not breathe the aerosol. Use only in well-ventilated areas. Do not smoke. Avoid the accumulation of electrostatic charges. Do not use excessively or improperly. Repeated exposure to the vapours may lead to dryness and cracking of the skin. Vapours may cause drowsiness and dizziness. Do not empty into drains.*

*FRA-BER s.r.l.  
The Laboratory Chief*

*The original document is signed and can be examined at the Company Headquarters.*
