# HISTORY

The innovation project will never end. Special attention to detail of our products means caring for our customers.

Founded in 1992 By Franco Berton as an individual firm, Fra-Ber became a limited liability company in 2007. Today it counts 30 employees, who operate in a 3,000 sq.m production plant, which includes a storage warehouse in Antegnate.

Over the years, Fra-Ber has become increasingly open to the world: today it is present in 60 countries and is a leading player of the industry in many of them. Fra-Ber exports 60% of its production, thanks to its clients worldwide, who trust this company that continues to create innovative products and believes that innovation must never end in order to allow distributors to emerge with a strong identity and stand out from the competition. Fra-Ber is proud of its products and protects them patenting and defending its wide range of specific items, in order to meet every requirement. A keen eye for detail becomes one with care for the client.

Fra-Ber is specialised in solving problems, offering tailor-made solutions to every distributor's request. Distributors can rely on a laboratory, which collects information directly on-site and processes it in formulations, working in close contact with washing plant managers, thereby giving rise to innovative products that stand out for their optimal quality/price ratio. The support offered by the company and its distribution network is essential in solving technical and management issues and in minimising product consumption.

The Fra-Ber production plant is equipped with all the equipment necessary for incoming material inspection, production, placing products in tanks and carrying out final quality tests. Over the years, Fra-Ber has constantly focused on quality in every stage of the production cycle, from selecting its suppliers to the final tests; the company firmly believes that continuous improvement of the processes must be accompanied by the design of new products. This is why Fra-Ber is implementing an advanced production management system that can meet customer requirements at every level.

Despite this tireless desire for innovation, Fra-Ber still keeps the same spirit with which Franco Berton had founded the company: Fra-Ber is still a family-run company, which considers clients almost as part of the family, ensuring quality and reliability.

---

# PROFESSIONAL LINE

A full range of products to clean any means of transport, for professional use. Specific product to meet any kind of need, designed by Fra-Ber's research lab, which gathers information directly from the field and processes it in its formulas to create innovative, quality products.

# WHEEL RIMS

## LEGA

Traditional acid-free formula to clean wheel rims without sponges. It acts without affecting the shine of the metal, leaving a polished surface.

PACKAGING	ITEM CODE

# PREWASH SINGLE COMPONENTS

## SUPER LIQUID POWDER

Super Liquid Powder is a concentrated prewash, neither powder nor liquid, with an entirely new consistency and innovative features. It combines the ease of use of classic liquid prewashes with the disintegrating force of powder. It eliminates stubborn dirt, removes traffic film. It is concentrated, safe and effective. Its effectiveness has been tested also at different extreme temperatures in summer or winter. Indeed thanks to its innovative hybrid molecular structure Super Liquid Powder it is not affected by weather conditions such as humidity or excessive heat and it is also easy to use at low concentration levels. Thanks to the adoption of a handy Dosatron injector with external injection that reduces inconveniences, Super Liquid Powder limits maintenance and running costs, with guaranteed performance. Super Liquid Powder is the all-in-one brushless solution.

### PACKAGING

SUPER LIQUID POWDER 04 - 30 BAG IN BOX 25 kg  
SUPER LIQUID POWDER BAG IN BOX 25 kg

### ITEM CODE

74076  
74841

### Operating instructions

Powder Jet with 5 l/min pump:

For hand washing: set dosatron between 2%-3%.

Fra-Ber recommends Dosatron at 3% for brush-less washing.

Rinse the car with water at minimum pressure 150 Bar.

For washing before tunnel and rollover: set dosatron between 0.8% and 1%.

Powder Jet with 9 l/min pump:

For hand washing: set dosatron between 1%-1.5%.

Fra-Ber recommends Dosatron at 1.5% for brushless washing.

Rinse the car with water at minimum pressure 150 Bar.

For washing before tunnel and rollover: set dosatron from minimum up to 1%.

# PREWASH SINGLE COMPONENTS

## PERFECT WASH

Its new formula is twice more powerful than that of any monocomponent pre-wash product. No other car cleaning product is so powerful. It can be used safely on the delicate parts of cars; does not damage aluminium or plastic parts on BMW, Mercedes and Audi cars. You'll be free to wash cars in total safety, without worrying about the weather or the brand of the car you are washing.

PACKAGING	ITEM CODE

## PRESOAK 1.1

Acid detergent with corrosion inhibitors specifically designed for brushless systems during the first prewash stage. Deep cleaning action that acts on traffic film, organic residues and car exhaust oxides. Does not damage parts it comes in contact with, such as seals, profiles, tyres, plastic parts, and is designed for all latest-generation materials. Prepares the vehicle for the alkaline-based reaction stage. We therefore recommend using it with the Presoak 2.2 detergent.

# POLISH

## LUSTRAWAX

This car shampoo is unique in its kind. It should be used pure; it forms a film on the car body, also in case of a deteriorated or opaque paint. This film lasts one year and resists washing. It is new! It can be diluted in water and has to be used in the car wash installation instead of the brush shampoo. The result is a film on the car body with great benefits for cars. It protects cars from rust, all those atmospheric agents that may damage paints and from the strong alkaline detergents used for prewashing. It can be used with osmosed water.

# WAXES

## CERA BRILLIANT UV

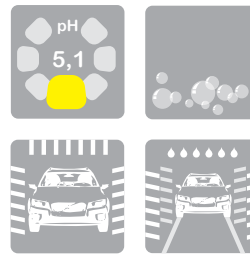

Innovative product without greasy chemical products, Teflon, silicones, carnauba and polymers. The highly slippery clear-drop effect allows for perfect drying and leaves a bright film that is activated with sunlight (UV rays). It gives surfaces a level of brightness and shine that cannot be matched with any traditional waxing technique and makes paintwork, aluminium and plastic parts extremely reflective. **IMPORTANT:** this is not a greasy product. It creates a dry film and is compatible with chemical, physical and biological treatment systems.

## GOMMANERA BRILLIANT

This softens every type of tyre, providing a "mirror" polish.

Main characteristics:

- It adds an extra glossy "plasticising" effect.
- Longer lasting, even in the rain.
- Even after various days.
- Softens, protects and preserves tyres with a "lotus" effect.
- Limits adhesion of dirt.
- Leaves a "wet-glossy" effect in tyres.

# SPRAY LINE WITHOUT GAS

## EUROFLU UV DETECTOR

Until now, the following steps were necessary to detect leaks or losses in sealed circuits of cars:

1. Discharging the cooling liquid.
2. To fill in the tracing gas under pressure in the system.
3. To locate the loss.

Today instead, thanks to "Euroflu UV", to locate the losses and leaks it is sufficient to use an UV lamp!

### What is Euroflu UV detector?

It's a liquid anti-freeze composition, soluble in water that is used to detect leaks for circuits on water based.

### Where can Euroflu UV be used:

1. The product can be used as cooling liquid in the closed circuit of the cooling systems of cars, industrial plants, houses etc.
2. as a leak detector, again in closed-circuit liquid cooling systems, to detect any leaks or microleaks on the circuit.

### What are the advantages?

- 2 products in 1:
- a. Anti-freeze preparation
  - b. Leak detector

Thanks to Euroflu UV leaks and losses are immediately detected by means of a UV lamp and the customer will not have long waiting times.

## DOUBLE LIFE

24-litre detergent sprayer with tank painted with an inner epoxy plastic-coating. Thanks to the plastic used for the inner surface of the nebuliser's tank, the tank itself is isolated from the chemical and is not damaged by the detergent's chemicals, thereby preventing oxidation and rust. The tank's life span is twice the life span of a normal tank. The detergent's composition is not altered due to oxidation and/or rust. Suitable for use with normal products and mild acids.

## POWDER JET

Powder Jet is the new hot sprayer that can be used at both high and low pressure with the Super Liquid Powder prewash product. Powder Jet uses Super Liquid Powder prewash System: a product that unite the combined cleaning force of powders and liquids. Powder Jet is therefore the ideal product for prewashing in manual wash, self service, tunnel and rollover systems with Super Liquid Powder to eliminate the most stubborn dirt. It reduces prewashing times: with just one product and in a single step it cleans critical points where brushes fail to reach. A high performance system that reduces the work load and optimizes results. Furthermore if the prewash Super Liquid Powder is used as a typical emollient it will correspond to 3 cans of a classic liquid prewash product.

### PACKAGING

STAINLESS STEEL PUMP 5 l  
STAINLESS STEEL PUMP 7 l  
STAINLESS STEEL PUMP 9 l  
NICKEL-PLATED PUMP 8 l

## POWDER JET SELF

The high-tech cabinet for self service, to be used with Super Liquid Powder. Top-notch technology for brushless wash. Its strengths are functional operation and user-friendliness.

The available programs are four:

1. Low-pressure Super liquid Powder dispensing.
2. High-pressure Super liquid Powder dispensing.
3. High-pressure rinse.
4. Waxing.

In case demineralized water should be used, it is possible to order Program 5 "demineralized water rinse".

## GRUPPO POMPA COMPLETO 2-6 PKY

Full low-cost pump with panelling (foam kit not included) to clean bodywork with alkaline detergents.

ITEM CODE  
76051

## DOSATRON D25 RE2

Specifically designed for products with microspheres or liquids. Dosatron injector adjustable dosing system with external injection. The chemical product does not pass through the central body. Dilution 0.2 – 2%.

ITEM CODE  
74349

## DOSATRON D25 RE5

Specifically designed for products with microspheres or liquids. Dosatron injector adjustable dosing system with external injection. The chemical product does not pass through the central body. Dilution 1 – 5%. Kit for viscous products.

ITEM CODE  
73441

## STRIZZAPELLI A MURO INOX

Wall-mounted stainless steel wringer.

ITEM CODE  
70079

## STRIZZAPELLI A MURO FERRO

Wall-mounted iron wringer.

ITEM CODE  
70080

## POMPA A PRECOMPRESSIONE

2,5 l professional precompression pump; use it with cleaning products.

FEATURES:

Ergonomic shape.

Max pressure 2 bar.

Manual pressure loading

Safety valve and pressure discharge.

2 lt. container.

Adjustable propylene nozzle for aggressive products.

Net weight with no load 0.5 kg.

PACKAGING

Pump with FPM seals (VITON) for acid products and solvents.  
Pump with EDPM seals for alkaline products.

## KIT LS3

### LS3 FOAM LANCE WITH VERTICAL BLADE TANK

New lance with vertical nozzle.

- Nozzle diameter 1.25 mm
- Rated Pressure 160 bar - 16 MPa - 2300 psi
- Permissible Pressure 180 bar - 18 MPa - 2600 psi
- Rated Flow 12 l/min - 3.2 USGpm
- Rated Temperature 60°C - 140°F
- Tank 1 L - 0.264 USg

ITEM CODE  
73638

### PGUN RL26- G3/8M-G1/4F RED LEVER

Gun with forged body. The stainless steel mechanism ensures high performance and durability. The ergonomic design reduces effort when using the gun and protects the operator's hand. The lever has a safety catch to prevent accidental operation. With red lever. Equipped with ceramic ball for use with chlorinated water.

- Rated Pressure 250 bar - 25 MPa - 3650 psi
- Permissible Pressure 280 bar - 28 MPa - 4050 psi
- Rated Flow 30 l/min - 8 USGpm
- Rated Temperature 160°C - 320°F

ITEM CODE  
74647

### STAINLESS STEEL 1/4 NIPPLE

Fitting for gun (74647) and lance (73638).

ITEM CODE  
78071

# DISCOVER THE OTHER FRA-BER PRODUCTS

A COMPLETE RANGE OF HOBBY LINE PRODUCTS FOR CAR CARE. THE AKTIV-E LINE WAS FORMULATED WITH UNIQUE AND CRUCIAL CHARACTERISTICS:

- > THE PRODUCTS FEATURE ADDED ACTIVE ENZYMES THAT IMPROVE CAR CLEANING QUALITY.
- > THE SPECIAL FORMULAS GUARANTEE THE SAFETY OF THE DELICATE PARTS OF YOUR CAR WITH VDA CERTIFICATION.
- > THE FORMULAS HAVE BEEN PATENTED FOR THE USE OF CAR WASHING PRODUCTS WITH ACTIVE ENZYMES.
- > THE AKTIV-E LINE HAS BEEN FORMULATED BASED ON PROFESSIONAL FORMULAS USED IN THE CAR WASH INDUSTRY AND SOLD IN OVER 50 COUNTRIES.

[WWW.AKTIV-E.IT](http://WWW.AKTIV-E.IT)

NEW LINE OF PRODUCTS THAT ARE EFFECTIVE AND EASY TO USE TO TAKE CARE OF THE CAR'S BODYWORK. THE SPECIFIC FORMULAS REALLY SOLVE ISSUES RELATED TO RESTORING THE PAINT'S PROPERTIES.

- > RESTORES THE PAINT'S DEPTH.
- > REMOVES SCRATCHES, MARKS AND OPAQUE AREAS.
- > GREATER PROTECTION OF THE SURFACE OVER TIME.
- > SPECIFIC PRODUCTS FOR VARIOUS KINDS OF SCRATCHES.
- > POLISHES SURFACES.

A FULL RANGE OF PRODUCTS FOR THE CARE OF BOATS. PRODUCTS THAT ARE EASY TO USE, SUITABLE FOR ANY SIZE AND TYPE OF BOAT. BOTH FOR PROFESSIONAL USE AND FOR THE END USER.

- > HULL CLEANERS.
- > BILGE CLEANERS.
- > TEAK AND WOOD CLEANERS.
- > UNIVERSAL ANTISTATIC DETERGENT FOR INTERIORS.
- > DESCALING PRODUCT FOR RUBBER FABRICS.
- > MULTIPURPOSE DETERGENT: DETERGENT, STAIN REMOVER AND BRIGHTENER.
- > WAX, POLISH AND PROTECTIVE PRODUCT FOR PLASTIC, ALUMINIUM AND FURNISHINGS.
- > EXTERNAL SURFACE CLEANING.
- > SANITIZING.

# DISCOVER THE OTHER FRA-BER PRODUCTS

A FULL RANGE OF PRODUCTS TO CLEAN ANY KIND OF SURFACE AND ENVIRONMENT. PRODUCTS SUITABLE TO TAKE CARE OF ANY DETAIL AROUND THEM.

> DETERGENTS FOR FLOORS MADE OF: WOOD, CERAMIC, STONWARE, CONCRETE, STONE, LINOLEUM, RUBBER AND CARPETS.

> WASHES&WAXES WITH A DETERGENT AND REPAIRING EFFECT, PLUS THEY ADD A GLOSSY TOUCH DETERGENTS AND DEGREASERS FOR INTENSE DAILY CLEANING.

> CRYSTALLIZING PRODUCTS AND SPECIAL TREATMENTS.

> DESCALING PRODUCTS AND LIMESCALE REMOVERS FOR THE BATHROOM AND KITCHEN.

> DETERGENTS AND RINSE AIDS.

> DETERGENTS, CONDITIONERS AND BLEACHES FOR FABRICS.

PATENTED LINE OF CAR DETERGENTS WITH ENZYMES. IN THIS NEW FORMULA ACTIVE ENZYMES PENETRATE DEEP DOWN INTO SURFACES' PORES AND IMMEDIATELY BREAK UP A WIDE RANGE OF ORGANIC RESIDUES THAT ARE NOT VISIBLE TO THE NAKED EYE, THEREBY ACCELERATING EMULSIFICATION AND REALLY IMPROVING THE CLEANING QUALITY.

> IMMEDIATE AND THOROUGH CLEANING OF VEHICLES AND OTHER OUTER SURFACES.

> DEEP CLEANING THANKS TO THE REMOVAL OF ORGANIC RESIDUE.

> DRASTIC ODOUR CONTROL, THANKS TO THE FULL BIODEGRADATION OF ORGANIC MOLECULES ALSO INSIDE PURIFYING SYSTEMS AND BRUSHES IN GENERAL.

> VDA CERTIFIED FORMULA TO REDUCE DAMAGE TO DELICATE EXTERIOR CAR PARTS SUCH AS THOSE MADE OF PLASTIC AND ALUMINIUM.

INNOVATIVE, EFFECTIVE AND SECURE: A COMPLETE NEW LINE WITH NANOTECHNOLOGY. HIGH QUALITY AND EFFICIENT PRODUCTS MADE FOR AUTOMATIC, SELF SERVICE AND MANUAL CAR WASHES.

> FRA-BER CYCLICAL SYSTEM: EVERY PRODUCT IS CREATED TO OPTIMISE THE EFFECTIVENESS OF THE NEXT ONE TO ENSURE THE BEST RESULTS.

> USE OF NANOTECHNOLOGIES, WHICH INVOLVES MANIPULATING MATTER AT AN ATOMIC AND MOLECULAR LEVEL.

> EXCELLENT QUALITY LEVEL.

> OPTION OF ALSO CHOOSING THE LINE'S AROMA VERSION.
