

WOOL WASH MITT

Description:

Extremely soft and delicate short-haired wool mitt, medium-sized to fit perfectly in all vehicle inlets and curves. Provided with a separate thumb which helps in washing door handles without the use of brushes or smaller mitts. Short-haired, delicate and absorbent. Ideal for use with the aid of large buckets (we recommend Det Bowl) and with a grille on the bottom to prevent leaving residues in the wool for washes in progress or future washes.

Main features:

- 100% wool.
- 300x200mm
- Natural colour.

Tips for cloth care:

- After use, thoroughly clean the mitt under warm running water up to 30°C.
- Allow it to air-dry naturally, avoiding any heat sources or direct exposure to the sun.
- Do not use the dryer and do not iron.
- **Caution:** please note that, being made of wool, the mitt is delicate and should be handled with the utmost care.
