

MICRON UP

Description:

This short fibre cloth has been designed to remove polish, compound and coating. It quickly eliminates residue left from products during polishing. The laser cut technology allows you to use it safely without leaving surface defects since the product is seamless and edgeless. It can also be used with spray products for cleaning leather/dashboards/door panels but also for metal polish. Gentleness and cleaning capability in a single product.

Main features:

- Microfibre.
- 40 x 40cm.
- 300 gsm.
- Label-free.
- Electric blue.

Tips for cloth care:

- Wash with lukewarm or warm water using a mild detergent (we recommend using Tex 1850ml). Machine wash at maximum 30°C.
- Do not use fabric softeners and bleach as they tend to alter the characteristics of microfibre.
- Do not use the dryer and do not iron the cloth.
