

## X-SPUMONE SELF

### Description:

HYBRID FOAM PREWASH.

Its formula is for those looking for a prewash with the perfect power and foam for touchless systems using a single product:

- It is suitable for foam systems (manual or self-service) or touchless systems: in a single product, it washes the bodywork and rims while removing insects, saving time and money.
- It forms persistent hybrid foam, consisting of micro-bubbles that cling to the surface for a long time, removing even the most persistent static dirt on the gaskets, plastic parts and rims.
- It contains anticorrosive agents and is free from SODIUM HYDROXIDE (and NTA)\* to leave the surface bright and shiny with a polish effect.
- It is slightly scented to give a long-lasting clean feeling.
- Contains surfactants with biodegradability according to regulation 648/2004.

\* It can contain traces.

For more informations visit the web site [www.fra-ber.it](http://www.fra-ber.it)

### Directions for use:

- Mix the product well in water.
- Prewash: from 1:40 to 1:60.
- Automatic washing: emollient/rims 4-20 ml/car.
- Automatic touchless washing: 80-210 ml/car.
- Self-service systems: 30 – 80 ml/car.
- Sprayer rims: 1:20 (5%).
- Sprayer insects: 1:30 (3%).
- Foam lance from 1:2 a 1:9 (100 ml/lt – 350 ml/lt).

Attention: it is not suitable for motorcycles. If used on dark, old and oxidised paint, it is recommended to cool the surface with water jets before applying the product.

### Warnings:

To handle the product follow the precautionary advice on the safety data sheet.

### Technical Features:

Appearance and color: orange limpid liquid

Odor: characteristic

pH: 14

Flash point: > 100°C

Relative density: 1,162 g/cm<sup>3</sup>

Solubility in water: soluble

### Storage:

Unopened and stored at room temperature away from direct sunlight.

### Packaging:

PACKAGING	ITEM CODE
JERRY-CAN 5 Kg	79874
JERRY-CAN 25 Kg	79875
