

**Description:**

Highly alkaline hygienising detergent, low foaming, with a peracetic acid solution (15%), easy to rinse. It favours the removal, together with dirt, of germs and bacteria. Can be used as a cold terminal hygieniser product for industrial use equipment, drums, pipes, machinery and also objects and surfaces with specific deodorant and bleaching properties.

Particularly suited for CIP systems with automatic injection dispensing systems.

**Directions for use:**

- Proceed as follows for washing systems with recirculation and automatic dosing:
  1. Rinse the system with water.
  2. Wash with a recirculation method with a minimum solution at 0.8% of Blanc X6 in cold water (20-25°C) for at least 5 minutes in terms of application time.
  3. Drain and rinse thoroughly with drinking water.
- To wash tanks, tiled surfaces, floors, etc. with sponges or scrubbers: dilute the product from 1% to 4% (10-40 ml per litre).

CAUTION: Not suitable for use on materials containing copper and on light metal such as aluminum.  
Always rinse surfaces after use (within 1 hour).

**Warnings:**

To handle the product follow the precautionary advice on the safety data sheet.

**Technical Features:**

Appearance and colour: Clear liquid

Odour: characteristic

pH: 0,93

Flash point: > 100°C

Relative density: 1,05 g/cm<sup>3</sup>

Solubility in water: soluble

Solubility in oil: partially soluble

**Storage:**

Unopened and stored at room temperature away from direct sunlight.
