

## POLISH PLUS AROMA

### Description:

RESTORES PLASTIC, DASHBOARDS. RUBBER AND LEATHER.

Polish Plus Aroma is a vanilla-scented detergent specifically designed by the Fra-Ber research and development laboratories for cleaning and protecting internal and external plastic parts such as dashboards, trims, fascias, tyres, bumpers, fenders, mouldings, rubber and leather parts of all transport vehicles (cars, trucks, motorbikes, vans etc.). Its special formula leaves the surfaces smooth to the touch without discolouring or making them greasy, while ensuring an effective antistatic barrier against dust and anti-UV, especially indispensable for the external plastic parts, the dashboards and the plastic parts of doors close to windows, which are often exposed to solar radiation. The vehicle's plastic parts are especially sensitive, in fact the micro pores of their surfaces tend to absorb dust and dirt and, as a consequence, they tend to age prematurely. That is why we recommend using Polish Plus Aroma regularly after thorough cleaning. Fra-Ber produces and packages directly this product in Italy according to the best quality standards.

### Directions for use:

Ready for use.

1. Spray evenly 20 cm away from the surface.
2. Spread the product evenly with the aid of a microfibre cloth.
3. Wipe with a dry cloth.

### Warnings:

To handle the product follow the precautionary advice on the safety data sheet.  
For professional and public use.

### Technical Features:

Appearance and color: clear liquid  
Odor: characteristic  
pH:  $7.00 \pm 0.5$   
Relative density:  $1,00 \text{ g/cm}^3 \pm 0,005$   
Flash point:  $> 100^\circ\text{C}$   
Solubility in water: soluble  
Solubility in oil: partially soluble

**Contains among other ingredients:** < 5 % Non ionic Surfactant, Perfume (COUMARIN), Preservatives (BENZISOTHIAZOLINONE, PHENOXYETHANOL)

### Storage:

Unopened and stored at room temperature away from direct sunlight.

### Packaging:
